## Says WILL ROGERS

BEVERLY HILLS.—Well all I know is just what I read in the papers. And about all you read is a Murder. A Robbery. Another Murder. Another Robbery. Then a train hits a loaded Auto. (They never hit em till they are loaded.) That's why more people than are not killed by a train is because there is so few really loaded Autos. An Engineer is careful that way, he won't hit a car with only one or two in it, he watches close and always calls his shots and gets a covey of em.

Then in between these above mentioned Columns in the Newspapers there will be a fellow in the home town that has just killed his wife and attempted to kill himself. That brings up another odd coincidence. Why is it that an attempted suicide that is going to kill somebody else along with himself, why is it they never miss the other party but they are poor shots on themselves? You would think as close as they are to themselves that they couldn't miss. But they most generally do. They seem to be able to hit everybody they shoot at but themselves. Out here in Los Angeles we had a fellow who wanted his wife killed and instead of killing her himself, and then missing himself, why he hired another fellow to do it, and what do you think he gave him, \$130. One dollar and thirty cents, and he went in and shot her in her bed, and all he got for it was \$130 and all in dimes, and they are giving him a trial. A community that would go to the expense of trying a bird like that why that's about all we deserve. There is some things that go beyond the law.

Then there is always a Column for Russia, fog they will have been in some kind of devilment during the previous night. Last week they said that the World was plotting against them. Then named the men that have it in for em. Well they will get all their people excited over that, and that will be in the papers for awhile till somebody thinks of something else. Brazil or the Argentine can stay on our front pages over a week at a time and then they have to have a pretty fair grade of Revolution to stick that long.

Hitler over in Germany we have had his column pretty vacant here lately. He has just about run out of Gags. You just can't stay on that old page continually, the strain is too great, you can't think of enough to do. I mean there is a fellow named doing it Mussolini has never had during our time. Down with a statement more cunning than any other man that ever lived. He gets on there once a week or more, if he is going good. He keeps France so busy denying and denouncing that they don't know what it's all about. Bernard Shaw can make the front page any time he wants to express an opinion about anything from Einstein's Theory to the cultivation of Whiskers or Birth Control among Authors. He is the highest paid Author in the World yet he has given away more free stuff to the papers than any man that ever lived. For everything he ever said was news, and everything any other Author ever said was Publicity.

The poor old Editorial pages are just about passing out. Nothing that is not accompanied by pictures of the actual killing will interest anyone any more. The readers don't want advice any more. That's what the matter with this country; it's been advised to death. An editorial might explain the right course for everyone to pursue, but who wants to pursue it? An instructive Editorial is like the lilies they used to have at the top of the old Copy writing book. It was a fine sentence, and it sounded just like what you ought to do, but you just copied it and went on. A picture of Mary Garden getting off the boat is of more importance than what Opera she is going to appear in. Her and Old Tack out in Amarillo can get in an argument and make up and get the town more advertising than the low price of wheat can.

Then you have to leave room in there someplace for the "Columnist." Pretty near every paper is afflicted with a mass of us. We are flourishing through a certain reign of insanity that perhaps won't be permanent, and we are to any of us who take the whole thing seriously. I think even Mr. Coolidge knows that as soon as the Country is thoroughly adjusted that we will be in some essential line, with a smaller recompense but an easier conscience. But with all its faults the old Paper is our daily bread. Sometimes it's burned, and sometimes not cooked to suit us, but we got to have it everyday, and its intelligence is always in keeping with its readers.

## VERNON BENNETT KILLED BY HUNTERS

RESIDENT OF LEWISTON WAS FORMER GRAYLING CITIZEN

Vernon Bennett, 36, of Port Huron, who lost his life last week Thursday evening by shooting on the part of deer hunters, was at one time a resident of Grayling and was employed in the M. C. R. R. roundhouse. A special to the Bay City Times regarding the matter in Monday's edition says the following:

Mio, Nov. 24.—Four hunters, one the confessed slayer of Vernon Bennett, 36, Port Huron deer hunter, who was shot and fatally wounded near Lewiston Thursday evening, were released early this morning and all charges dropped. According to Sheriff Manson Marsh, Oscoda county, the four men, Chester Zimmerman, Midland, who admitted the shooting, Frank Krohn, Eugene Zeigrist, and Donald Foster, all of Richmond, claimed the slaying was accidental. They stated to authorities continuously, since first arrested early Saturday morning, that Zimmerman thought he was firing at a buck, and they thought Bennett's cry was a warning from a warden.

Mrs. Bennett, wife of the dead man, stated last night she was satisfied the shooting was accidental and did not intend to prosecute the four men. It was her decision that resulted in the release of the hunters.

W. P. Gallagher and Lee LaRue, both of Detroit, who were with Bennett when he was wounded, stated they believed it accidental. Dr. A. R. Wood, Lewiston, who attended Bennett, said that while he was dressing the man's wounds, Bennett said he believed it accidental.

The four have agreed to reimburse the county for the expenses incurred in investigating the case, also to pay no burial expenses of Bennett. They have also agreed to appear at any time they are wanted in connection with the case, Sheriff Marsh said. Bennett was buried yesterday in the Lewiston cemetery following a simple funeral service. He was a former resident of Lewiston. Mrs. Bert Klock, his mother, and his family reside there.

## CLEW TO WOMAN'S DEATH

Sheriff Bohlenmeyer believes he has in his possession a clew to the identity of the woman whose body was found by hunters last week Wednesday near the Manistee river.

On Tuesday morning C. S. Barber of Frederic brot in a woman's shoe that was found near where the body of the woman was found and it is believed that it was one that was worn by her.

The shoe is about size 8 or 9 1/2, black patent leather. The heel is about two inches high, plain toe and openwork across the ball of the foot and there is a black leather rosette on the right side. The inside of the heel has evidence of repair.

The shoe was found by hunters and the place marked and they in company with Mr. Barber returned and found that the spot where it was found was close to the place where the woman's body was found.

## MARRIED

On Saturday evening at 8 o'clock at the home of Marlin Maxwell, Robert Leo Canfield and Fern Viola Denno, both of Beaver Creek, were united in marriage, Ira C. Grabbill, of the Free Methodist church officiating.

## Uncle Eben

"When a man keeps complainin' dat he ain't had no opportunity in life," said Uncle Eben, "you kind o' wonder whether he ain't too busy kickin' to notice an opportunity if it comes along."

—Washington Star.

1-Lieut. Gen. Werner von Blomberg of the German army (saluting) inspecting the cadets of the Military academy at West Point. 2-First aerial view of the estate on a mountain top near Princeton, N. J., bought by Col. Charles A. Lindbergh. 3-Larry Ritchie, one of President Hoover's secretaries, with the wild turkeys and pheasants which he shot for the White House Thanksgiving dinner.

## ATLANTA B.B. TEAMS HERE DEC. 4

Thursday night, December fourth. Remember the date and keep it open, for that's the time that Grayling officially opens the basketball season with a double header, that should prove to be of interest to all the fans. Both the High School team and the All-City will swing into action against opposition from Atlanta, and this double attraction should be a fitting inaugural for the season of 1930-31.

Coach Cushman has been drilling his squad of high school tossers for some time now and will be all set to send a well drilled team upon the floor when the hostilities start. While it is extremely hard to know just what the starting lineup will be there is some opportunity to speculate from the personnel of the first coaching staff. Coach Cushman probably won't know just who to send into battle until the last minute. Sherman, Knibbs, Pankow, Loskos, Sheehy, Billy Harrison, Norman Dawson, San-Cartier, Jack LaGrow, Gothro, and Bud Sorenson make up the squad and from them the starters will be picked. One boy turned in his suit upon being set back to the second squad for more development for future use, with the remark that he'd be on the first squad or none, and the process of elimination goes on. The process of evolving this year's edition of the North-

ern Lights is no easy one. The All-City team is also coming along fast. Under the official title of "Lumberjacks" this squad is being to give Grayling plenty of publicity. Manager McNeven and Coach Cushman are directing their destinies. They take on Atlanta Independents as the other part of the double header and should find worthy opposition. The Atlanta team turned in a victory over Alpena's famous Indies as a starter for their season, so should not prove to be too easy opponents. Like the High School it is impossible to predict a lineup for the Lumberjacks, though it will probably be picked from the following list: Wylie, Brady, Robertson, Rudy Harrison, Neal, Hendrickson and LaGrow.

The Grayling band will be out for the games to lend its services in making this a big night. Be there!

When introducing new foods into a child's diet, give only one food at a time, and that in small quantity, well cooked and nicely served.

## EDDIE CANTOR IN "WHOOPEE"

For "Whoopie" their first screen musical comedy, Samuel Goldwyn and Florenz Ziegfeld joined hands in gathering together one hundred of the most decorative young ladies to be found anywhere. And to be sure, they decided to look everywhere.

Eddie Cantor, as star of the picture, Ziegfeld's artistic director, sat in. So did Busby Berkeley, who staged the dances. In London, Cedric Belinfante took measurements and asked young ladies to exhibit their pride. In New York, test after test was made. Miss Springfield, Ill., came to Chicago for a voice recording. Goldwyn and Ziegfeld were asked for measurements. Just what perfect girl have "None" was the answer. Every girl was different. Harassed and hurried casting directors, professional and amateur, continued their feverish search—behind lunch counters, in dancing schools and the music academies, among the models of the famous New York, London and Paris couturiers, everywhere that beautiful women were suspected of holding forth.

In the course of the nine weeks consumed in making the search, the auditor (not the press agent) of the Goldwyn office reports that 1844 tests were received in Hollywood. Of them, 104 were accepted. Sixteen came from Broadway, professional showgirls. Among them and heading the list were Dorothy Knapp, labeled in the successive editions of Earl Carroll's "Varieties" as "the most beautiful girl in the world," and young Eleanor Hunt, whose work proved so impressive, that she was made Cantor's leading lady. Francine Benoit, who went to Paris three years ago as an Albertine Rasch dancer, returned as a "Whoopie" addition. Two young ladies, one an actress and another a church singer, came from England. Others came from New York, Chicago and other cities. More than fifty were selected in Hollywood.

Once assembled, the 100 young ladies had nothing to do for the next four weeks but sit day by day in the costumes, being fitted each one of them, for 12 changes of costume. Just as each girl had to perfectly fit her costume, so did each costume have to fit the color scheme of the 61 sets, all photographed in technicolor. Which merely goes to prove how \$1,600,000 may be spent on a picture wisely.

"Whoopie" will be shown at the Rialto theatre on Thursday and Friday, Nov. 27 and 28.

PROGRAM PROMPTLY AT 8:00 P. M.

## 500 ATTEND RED ARROW AUCTION

A large crowd attended the Red Arrow Auction last Friday evening at the Temple theatre. It was estimated at 500 people, many of whom were from out of town.

Alfred Hanson of the Hanson Service Station filled the position of auctioneer, assisted by Alfred Sorenson. Everybody had a fine time and things went on in perfect order.

The decorating committee had things arranged on the stage in a very attractive manner.

The highest bid cast in the silent auction was that of Mr. E. J. LaBrash for item No. 42, a 13-plate battery, the amount being \$205.00 in Red Arrow money. The lowest bid was \$1.00 for one Marlin's Coat compass and it was awarded to Donald Akers.

Other bids were as follows: Boudoir Chair sold to Emil Kraus for \$132.50. Boudoir lamp sold to Martha Bidvia for \$75.00. End table sold to Mildred Hanson for \$100. Utility Box sold to Mabel Hoffman for \$74.25. Doll bed sold to Mrs. Tracy Nelson for \$88.15. Football sold to Norman Johnston for \$15.00. Stereo Stove sold to Ellen Mae Rasmussen for \$9.10. Scout Knife sold to Clyde Borchers for \$35.00. Carving Set sold to Jack Sparkes for \$125.30.

Daisy Air Gun sold to James Weiss for \$80.25. Box of Shells sold to Howard Schmidt for \$25.30. Ladies Scarf sold to Leo Lovely for \$44.00. Ladies Dance Set sold to Mrs. H. Hanson for \$76.00. Baby Shawl sold to Mrs. C. I. Webb for \$35.00. 2 pr. Silk Bloomers sold to Mrs. W. Hunter for \$29.85. 2 pr. Silk Hose sold to Evelyn Sorenson for \$75.00. 1 pr. Men's Gloves sold to Howard Schmidt for \$35.30. 1 pr. Men's Gloves sold to John Hymer for \$45.00. 4 lbs. Cranberries sold to Mrs. J. S. Jensen for \$14.05. 1 Gal. Pumpkin sold to Mrs. Rex Chappel for \$28.65. 25 lbs. Sugar sold to Andrew Beck for \$40.00. Auto Cleek sold to Frank Schmidt for \$35.50. Tire Chains sold to Chas. Papenfus for \$115.00. Boy Scout Flashlight sold to Nels Olson for \$50.00. After the silent auction was closed an old time open auction started and it is hard to say which of the two, silent or open auction, was the most exciting. The bids went high.

Open Auction bids: Socket wrench \$35.00. Cigar Lighter \$25.00. Camp Flashlight \$75.00. Basket of groceries \$50.00. 2 lbs. Graham Crackers \$10.00. 5 lbs. Graham Flour \$21.00. 5 lbs. Pancake Flour \$15.00. 5 lbs. Pastry Flour \$15.00. Glasses Mince meat \$30.00. 1 lb. Royal Garden Tea \$13.00. 2 lbs. Soda Crackers \$10.00. 2 Men's Ties \$10.00. Ladies Leather Bag \$70.00. Dasso Hammer \$22.00. Ultra Flashlight \$40.00. Record Album and Records \$35.00. Conklin Pencil, actual worth one dollar sold for \$51.00 Red Arrow money.

A Savings rifle valued at \$5.00 sold for \$47.40 and a Pyrex Tea Pot brought \$20.00.

There were several other unlisted items sold at the open auction and it created a lot of interest. The merchandise is from the regular stock and worth the prices named on the auction list.

The reputation of the merchants connected with the Red Arrow campaign will assure the people a fair deal.

After the auction a dance was given.

## THE COURAGE TO BOOST

The fearless courage to boost our community as the best place in which to live, as the best place in which to transact business, as the one spot in all the world that we are proud to call home—is the brand of courage this community and every other community that wishes to grow and prosper must have.

Hand in hand with the spirit of boosting must go the desire for betterment and the dare to grasp opportunity as it comes.

Make "Work together, Boost together" Grayling's slogan.

## WOMAN'S CLUB ENTERTAIN FOR DISTRICT CHAIRMAN OF STATE FEDERATION OF WOMAN'S CLUBS

Mrs. A. E. Mulder of Clare, District Chairman of State Federation of Woman's clubs and Mrs. Gerald Lamb of Farwell were guests of honor at a very delightful affair given by the Woman's club at Michelson Memorial church Monday evening. The ladies of the Goodfellowship club were guests also.

The program opened with a very pleasant duet sung by Miss Marie Schmidt and Miss Vella Hermann. A "spike horn," have been seen reviewed by two readings by Miss Virginia Jacques which were well received. Mrs. Roy Milnes sang a beautiful solo in her usual charming manner. Miss McAllister then finished the musical numbers with a very well rendered vocal solo.

Mrs. Emil Giegling, President of the club, then introduced Mrs. Mulder who gave a very inspiring talk on women who have been outstanding in the last few years and who have gained their prominence through struggle, or, as the speaker put it, "Having the last word" in accomplishing their different tasks in life. Mrs. Mulder's talk was very interesting and was given in a very pleasing manner. Mrs. Giegling also called on Mrs. Lamb who responded with a few remarks on what the Farwell club were doing.

Mrs. Louis Herblison and her committee then served the ladies with a very dainty and appetizing lunch. The affair is one of the outstanding features of the club year for both the hostess club and their guests.

## LADIES AID ENTERTAINED WITH A DELIGHTFUL TEA

As a memorial to Mr. and Mrs. Nels Michelson, the Ladies Aid of Michelson Memorial church entertained with a very pleasant tea in the parlor of the church Monday afternoon.

The parlor had been arranged very attractively for the occasion, with lamps, easy chairs and baskets of greenery, hollyhocks and Michigan Holly. A long table with lace banquet cloth was spread at the lower end of the room. This was centered with a large silver basket filled with yellow and it was well attended. The Home Economics class sold refreshments for the benefit of their class funds.

## THANKSGIVING SPECIAL

Eddie Cantor in "WHOOPEE"

Saturday, Nov. 29th (only) Walter Huston in "VIRTUOUS SIN"

Sunday and Monday, Nov. 30 and Dec. 1 John Gilbert and Wallace Beery in "WAY OF A SAILOR"

Ford Shows Faith in Future by  
World Wide Construction Program

Top—The Ford plant at Edgewater, N. J., opposite New York City. Center—The new plant at Long Beach, Cal. Bottom—A model of the plant being built at Dagenham, England.

THE Ford Motor Company's faith in the future of the automobile, as evidenced by the fact that it is spending more than \$50,000,000 for new plants and improvements in the United States and in foreign branches and associated companies.

The company has nine new plants under way throughout the world, while plans are being formulated for several others not yet announced. "Wherever possible the new plants are being erected on sites accessible to both rail and water transportation so that, with the form of transportation supplied, the other substantial savings will be effected."

Five of the new plants are in the United States, as follows: Long Beach, California—This plant, recently completed to serve Southern

California, has a capacity of 400 cars a day. Operating at capacity it employs 2,600 men.

Edgewater, New Jersey—The Edgewater plant, one of the company's largest assembly branches, has just been completed to serve New York City and surrounding territory. It has a capacity of 600 cars a day and employs 5,000 men.

Richmond, California—Work was started recently on a plant at Richmond, to be completed next year. It will have a capacity of 100 cars a day and will employ 1,000 men. It will supply cars to the San Francisco area.

Buffalo, New York—This plant will have a capacity of 400 cars a day and will employ 2,000 men. A site has been acquired and plans for a plant are being drawn.

A new manufacturing plant being erected at Dagenham, England, eighteen miles from London, to supplant the present works at Manchester, will be completed next year. It will be the largest automobile factory in the world outside the United States. Its capacity will be 200,000 cars a year.

An assembly and manufacturing plant is being built at Goteborg, an assembly plant at Antwerp, and a service plant at Stockholm. Two branches—one at Perth, Australia, and one at Port Elizabeth, South Africa—were completed.

In addition the Ford Motor Company is spending several million dollars to improve its plants at Dearborn, Mich., and several million more in miscellaneous improvements.

## Inside Information

Corn fritters may be made from left-over corn on the cob. To 4 tablespoons fresh corn add 1 teaspoon melted fat, 1 teaspoon baking powder, 1 egg, ½ cup milk, 1 cup flour, ½ cup oil, mix to a batter and fry in deep fat.

Soft jelly can be used in many appetizing ways. Spread it on pan-cakes; on jelly roll; put it in pastry shells with a bit of whipped cream on top; fill apples that have been cooked tender in sirup with some of it; put a bit on such milk desserts as blanc manie, custard, Spanish cream, or bread pudding.

Very salty smoked haddock is improved by cooking for 15 or 20 minutes in water which is then discarded and replaced with fresh water. To serve haddock, pick the flakes from the bones after parboiling and add to a white sauce. One or two hard-boiled eggs in the sauce are an improvement.

Eggs for lunch or dinner may be shredded, cut into cubes, served with ham, poached, fried, and with or without Hollandaise sauce; scrambled with bacon baked in tomato sauce, made into omelets, or baked as in a cheese souffle. Leaflet 39-1, Eggs at Any Meal, is a publication which may be obtained free from the U. S. Department of Agriculture. It contains many recipes for such dishes as these and other ways of eggs for breakfast, in desserts, and in sauces.

The less tender and less expensive cuts of beef can be made into attractive and delicious dishes when they are cooked properly. Long, slow cooking and moisture are needed to make the meat tender. Pot roast, Swiss steak, and similar dishes are among the ways of serving the less tender cuts.

Loin lamb chops cut double thickness—1½ to 2 inches thick—are particularly juicy and delicious when carefully cooked by searing on the outside and finishing under a reduced flame. They may be broiled or broiled under direct flame, over coals, or in a sizzling hot skillet.

The parent's job in training children in good food habits is only half done when it is well begun. There is always the possibility of the influence of playmates who are allowed to pick and choose what they will eat, or to spend money for sweets and other foods between meals. Good food habits, supervised carefully throughout childhood, make for good nutrition, which is the basis of sound physical development.

## SOME AMERICAN OBSERVATIONS

By Jay Taylor

A prominent Englishman who has had much experience in dealing with the liquor problem, recently made some observations on our troubles in America. He thinks that those who favor the sale of liquor are by lining a program for the sale of liquor that would save the country from the corrupt political influences of the retail dealers, brewers and distillers, for that he says was the greatest evil of the old system.

We are finding new evidence every day that as a nation, too, it pays to mind our own business.

Believe it or not—the largest consumer of maple sugar in the United States is the American Tobacco Company.

No administration in the history of the government has worked more intelligently and effectively in dealing with a serious business depression than the present administration at Washington, and the work is beginning to show results.

Our League of Nations advocates are still urging us to enter some treaty that will bind America to take sides against the aggressor in any European war. But how would we decide who was the aggressor? Our information would come mainly from those news agencies that for years have specialized in misrepresenting the facts to the American people. Might we not find ourselves fighting on the wrong side? Why isn't it better anyway to let the Europeans settle their own quarrels.

## EDITORIAL PARAGRAPHS

DUMPING "RED" SALMON Soviet canned salmon is being dumped in the British market. This is one of those times when red salmon isn't best.—Hamilton Spectator.

DILUTED The estate of the soup millionaire who left \$150,000,000 must pay a \$20,000,000 tax. Thinning it a bit for the heirs. Cleveland Plain Dealer.

THRIVING INDUSTRY Business may be off in South America, but so far as Presidents are concerned, the canning trade appears to be holding its own.—Macon Telegraph.

Cultivate Ease of Mind If you desire ease in the first place take care of the cause of the mind; for that will make all other sufferings easy; but nothing can support a man whose mind is wounded.—Pulitzer.

## News Briefs

We have lots of new slippers for \$2.95 at Olson's.

Elmer Fenton is home from the Mt. Pleasant Normal College for the Thanksgiving vacation.

Dr. and Mrs. C. G. Clippert attended the M. S. C. U. of D. football game at Lansing Saturday.

Mr. and Mrs. William McNeven and Miss Nadine drove to Bay City Monday on business.

Mr. and Mrs. Fred Welsh and family will drive to Bay City Thursday morning and eat turkey with Mr. and Mrs. Wm. Dreyer of that city. They will return Friday.

Week end guests at the Wm. Weiss home included the Messrs. Merrell Meyer, Charles Zimmerman, Robert Ludwig, Detroit and Joseph Meyer and Otto Eden, Saginaw.

Mr. and Mrs. C. F. Schumann left Wednesday for Olivet where they will be joined by Miss Mary and together they will go to spend Thanksgiving with relatives in Hastings. They will also visit Grand Rapids before returning Sunday.

Don't miss the band concert and dance at the school gymnasium this Thursday evening. Music by Grayling Band orchestra for dancing. Everybody welcome. There will be no charge for concert, however a charge of \$1.00 per couple will be made for dancing.

Albert Funck shot a big white Arctic owl Wednesday that measured four feet and seven inches from tip to tip. It was a wonderful specimen and snow white except for a series of black dots across its back and wings. The bird is now in possession of Frank Barnett at the Grayling Hardware who will have it mounted.

The Weiss camp at Riverview was occupied by a party of hunters from Saginaw last week and on leaving they took home four bucks among them. The members of the party included Clyde and Albert Compas, Ed Decker, George Weiss, Gene Cox, Oliver Williams and Luther Gibbons. William Weiss Jr. of Grayling acted as guide for the hunters.

Mrs. A. E. Mulder of Clare and Mrs. Gerald Lamb of Farwell were guests of Mrs. A. J. Joseph Wednesday. Mrs. Joseph entertained with a dinner in their honor Monday evening before the Women's club entertainment at Methodist Memorial church. Guests included Mrs. Emil Grogling, Mrs. Roy Milnes, Mrs. Fred Welsh, Mrs. C. R. Keyport, Mrs. Oscar Schumann and the honor guests.

Mr. and Mrs. Herbert Ward (Ruth Chamberlain) of Detroit spent a few days in Grayling last week.

School closed Wednesday noon for the Thanksgiving vacation to enable the teachers to go to their homes or elsewhere.

John Snogren, father of Mrs. Carl Englund of Bay City is a guest at the home of Mr. and Mrs. A. E. Hendrickson this week.

Mrs. James Eden and Miss Gladys Meyer of Saginaw are spending a couple of weeks at the home of the former's parents, Mr. and Mrs. William Weiss. They will return home Sunday.

## EPWORTH LEAGUERS—NOTICE

Starting last Sunday night, October 23, we are studying together the "Noble experiment called Prohibition."

The topics are as follows:

1. The modern situation.
  2. The question of personal conduct.
  3. Social practices—are they Christian?
  4. Standards of citizenship.
  5. The possible solution.
- We invite all High school students to "get in" on these discussions. League each Sunday night at 6:30 P. M.

## Abraham Lincoln On Prohibition

"The liquor traffic is a cancer in society eating out its vitals, and threatening destruction; and all attempts to REGULATE IT, will not only prove abortive, but aggravate the evil. If the PROHIBITION of slavery is good for the black man, the prohibition of liquor is equally good and constitutional for the white man."

It is a happy privilege to stand with Lincoln on this great issue. No matter how much the criticism, we are at least in good company when we think in keeping with the convictions of the man of whom a recent President has said "He was the greatest man since Jesus Christ."

Discovery Unpublished In the 1830's two German research chemists had discovered the drug chloroform, but neither of them knew to what great use it could be put. The drug had merely been discovered—that was all.

## Want Ads

FOR SALE—Modern house. Lights, water, hotwater heat, oil burner, nicely located. Bargain. See O. P. Schumann at Avalanche office.

## Sore Throats and Coughs

Quickly Relieved by this  
Safe Prescription.

Here's a doctor's prescription called Thoxine that is really throat insurance. Its success is due to its quick double action. With the very first swallow it soothes the sore throat and the coughing. It goes direct to the internal cause.

The remarkable thing about Thoxine is that while it relieves almost constantly it contains nothing harmful and is pleasant tasting and safe for the whole family. Singers and speakers find Thoxine very valuable. Put up ready for use in 85c, 60c, and \$1.00 bottles. Your money back if not satisfied. Sold by Mac and Gidley's Drug Store and all other good drug stores.

Waxing inlaid linoleum at regular intervals makes it last longer.

## TO THE OWNER OR OWNERS OF ANY AND ALL INTERESTS IN OR LIENS UPON THE LAND HEREIN DESCRIBED:

Take notice that sale has been lawfully made of the following described land for unpaid taxes thereon, and that the undersigned has title thereto under tax deed or deeds issued therefor, and that you are entitled to a re-conveyance thereof at any time within six months after return of service of this notice upon payment to the undersigned or to the register in chancery of the county in which the land lies of all sums paid upon such purchase, together with one hundred per centum additional thereon, and the fees of the sheriff for the service or cost of publication of this notice, to be computed as upon personal service of a declaration as commencement of suit, and the further sum of five dollars for each description, without other additional cost or charge. If payment as aforesaid is not made, the undersigned will institute proceedings for possession of the land.

## Description of Land STATE OF MICHIGAN

County of Crawford:  
Northeast quarter (1/4) of the southwest quarter (1/4) Sec. 11, Town 26N, Range 2W. Amount paid \$7.10 tax for year 1922.

Amount paid \$7.23 tax for year 1923.

Amount paid \$6.70 tax for year 1924.

Amount paid \$5.65 tax for year 1925.

Total \$27.48

Amount necessary to redeem \$39.96 plus the fees of the sheriff.

Ralph W. Phillips, Eva B. Phillips, place of business 300 Center Ave., Bay City, Michigan.

To John A. Smith, last grantee in the regular chain title of such lands or of any interest therein as appearing by the records in the office of the Register of Deeds of said County.

Richard D. Connors, grantee under the tax deed issued by the Auditor General for the latest year's taxes appearing of record in said registry of deeds.

Mary Staib, assignee of record of all undischarged recorded mortgages.

## NEWS REVIEW OF CURRENT EVENTS

### United States Contends at Geneva for Real Reduction of Armaments.

By EDWARD W. PICKARD

DIRECT and genuine reduction of land and sea armament was proposed by the United States in the session of the preparatory disarmament commission in Geneva, the spokesman for this country being Ambassador Hugh Gibson. He was replying to Lord Robert Cecil's speech advocating limitation through budgetary curtailment, and said the United States could not accept this plan for two reasons:

First, because it is ineffectual and cannot efficiently and accurately restrict the maintenance of war material;

Second, because the congress at Washington probably would refuse to ratify any such agreement, which, he said, infringes on its right to make appropriations for national defense.

The British want the budgetary system applied to land forces but not to navies, and they are supported by France, the little entente and some other nations. The American demand is backed up by Germany, Japan, Russia, Scandinavia, Holland and Canada. Maxim Litvinov, Moscow's representative, insisted that a direct system of limitation of arms alone will give results. He went further and insisted on a dual method of limitation with the publication of complete tables of war material, and a graduated decrease in military budgetary expenditures.

N. Sato of Japan declared that the direct method of limiting fighting forces was too difficult to apply and was impossible to impose on all nations. He said: "I think that Japan's view is that we should be content to limit soldiers and not attempt to limit material by any method."

Gene Massigli of France complained that Mr. Gibson was too severe against the budgetary system, and admitted that some countries' military budgets do not reveal the exact amounts spent. He also voiced apprehension over subsidized armaments.

The French delegation then proposed that a committee of experts be named to examine both systems and report to the governments to give them time to make up their minds before the disarmament conference is held.

PRESIDENT HOOVER in an Armistice day address urged his listeners to work continuously for peace with the same zeal with which America's war dead waged war, but he said the time has not yet come when the United States can rest its defense solely upon the Kellogg pact and other peace machinery, and he also made it clear that the United States intends to keep free of political pacts that would bind it to the use of force to maintain peace.

"The purpose of our government," the President said in addressing an audience of 8,000 delegates attending the Good Will congress of the World Alliance for Friendship Through the Churches, "is to co-operate with others to use our friendly offices and, short of any implication of the use of force, to use every friendly effort and all good will to maintain the peace of the world."

General Pershing, Secretary of State Stimson and Secretary of War Hurley all made Armistice day talks in Washington, and all of them pleaded for adequate preparation for national defense.

Secretary Hurley said that in event of another war "each farm and factory, each mill and mine, will be required to perform its duty to the country in support of the soldier who faces the enemy at the front. Never again shall one citizen be required to give his life in defense of his country while another is permitted to make unusual profit at his country's expense."

HOW American agriculture can be helped to establish itself on a firm economic basis was the main topic before the National Grange at its sixty-fourth annual convention in Rochester, N. Y. To this end six suggestions were put forward by National Master Louis J. Taber, these being:

1. Stabilization of values.

2. A higher price level for farm commodities.

3. More justly distributed system of taxation.

4. Extension of the federal farm loan system.

5. Readjustment of the nation's freight rate structure.

6. Restriction of immigration and conservation of natural resources.

"Criticism of the speculation in grain on the Chicago Board of Trade, Mr. Taber said:

"As long as this present system remains with its violent price manipulations it is obvious that there must be a method of protection by hedging for the safeguarding of the buyer and processor, but when hedging and short selling take the form of speculation and gambling in the necessities of life, the public is injured."

"Unfortunately for the American farmer, our present marketing structure operates with no concern as to the price he receives. It is a sad commentary on our present boasted when marketing program, that during the recent period of agriculture's greatest depression, and the grain grower's consequent distress, the Chicago Board of Trade erected a \$12,000,000 building, while the producer suffers near annihilation."

SEVEN national leaders of the Democratic party offered to co-operate with President Hoover and his administration in non-partisan efforts to stabilize business, promote business, and otherwise improve the national welfare through legislation and they gave assurance that the Democrats, victorious in the recent election, would not attempt for the present to change the tariff act passed last June.

On behalf of the administration and

the Republicans in congress, Senator James H. Watson of Indiana, majority leader in the senate, accepted and welcomed the aid offered by the Democrats, saying the country is faced with a situation where the only patriotic solution lies in co-operative action.

It was learned at the White House that President Hoover will present to congress in December a large unemployment program which will include authorizations for new building projects that may exceed \$100,000,000. He already had announced the administration would ask an emergency appropriation, which may reach \$100,000,000, to finance an expansion of the government's public works construction program for the relief of unemployment. Removal of time limitations on projects now authorized will be asked, as will new legislation to remove limitations on certain industries that are handicapped in their desire to expand construction efforts.

That promise of co-operation made by the seven Democratic leaders was not well taken by Senator Carter Glass of Virginia, himself one of the most prominent Democrats, in so far as it affected the tariff. He asserted that "the group of Democrats, however distinguished or disinterested, should feel obliged to pledge their party associates in congress not severely to disturb the most infamous tariff act ever enacted by a legislative body, lest the doing of this might upset the acquisitive activities of those who are thus licensed to prey upon the American consumers."

INDIA'S future status within the British empire is to be worked out, if possible, at the long awaited "round table conference" which opened in London. King George himself started the proceedings with a speech expressing his earnest desire that the problem be settled in the best interests of all his subjects, and Prime Minister MacDonald was then made chairman.

Seated around a great oval table were eighty-six persons including the princes of India, representatives of all classes and communities of British Indians and of the kingdom of Great Britain, and among them were two women delegates, the Begum Shah Nawaz and Mrs. Subbarayan. But there was no representative of the powerful National Congress party which is headed by Mahatma Gandhi. For it had boycotted the conference. The many millions of Nationalists demand complete independence for India, while the other Indians, present at the round table, all insist on full dominion status as a minimum. This the present British government is pledged to grant, and the task of the conference is to work out the multitudinous details.

MARSHAL CHANG, the young war lord of Manchuria who by his intervention ended the civil war in China, went to Nanking last week to confer with President Chiang Kai-shek on a program of reconstruction. The Chinese problem presents the greatest difficulty for the Nanking government. It hopes to persuade the Manchuria faction to surrender the customs and salt revenue which Marshal Chang is cornering. Chang also is asking for \$50,000,000 monthly for the upkeep of Manchurian troops within the great wall.

WET Republicans are demanding that Senator Simeon D. Fess of Ohio resign as chairman of the Republican national committee, because he said that the party must remain dry or face a split and be defeated in 1932. The senator declares that this was merely his personal opinion, and that while he will continue to do all he can to combat efforts by the wets to weaken prohibition, he may be ready to support any recommendations made by the Wickersham commission that would tend to make prohibition more enforceable. He more than intimates he will not give up the chairmanship, but there are those who believe he will soon be forced out and that Robert H. Lucas will succeed him and conduct the next Presidential campaign.

Dr. Nicholas Murray Butler, president of Columbia university, says that if the Republican party's platform in 1932 does not call for repeal of the Eighteenth amendment "there will come in the following November the biggest political smash-up that has taken place in the history of any American now living."

As a matter of fact, the leaders of both parties are greatly concerned over the problem of adjusting their platform on the liquor issue so as to retain their respective strengths.

The Wickersham commission, trying to get together on a report concerning prohibition enforcement, continued its hearings and deliberations until Thursday and then adjourned until November 24. Among the witnesses it heard were Dr. William C. Woodward of Chicago, legislative counsel for the American Medical association, and Dr. William M. Mayer of Pittsburgh, Pa. Both doctors were understood to have told the commission that they felt the present dry law provisions are obnoxious to their profession generally and a burdensome interference with the practice of reputable physicians.

GEN. TASKER H. BLISS, who was chief of staff of the United States army during the World War, American representative on the supreme war council and one of the American peace commissioners in 1918, died in Walter Reed hospital, Washington, at the age of seventy-six years. He was buried in Arlington with full military honors.

Thomas Coleman du Pont, former senator from Delaware, grandfather and for years head of E. I. du Pont de Nemours & Co., passed away at his home in Wilmington, Del. Other notables who died included Dr. Julia Holmes Smith of Chicago, pioneer suffragist and philanthropist; John Lee Mahin, noted advertising man; Sidney M. Colgate, soap magnate, and P. M. Hubbard of Des Moines, reputed to be Iowa's wealthiest citizen.

THREE landlides in rapid succession, caused by heavy rains, buried part of Louisville, a densely populated industrial suburb of St. Louis, France. Scores were buried alive and it was thought the death list might

run as high as one hundred. Members of rescue parties that began work after the first landslide were among the victims of the later ones.

PREMIER Toku Hamaguchi of Japan was mortally wounded in a Tokyo railway station by a young member of a reactionary patriotic society. He was shot in the abdomen. The premier, known as the "Iron of Japan," was considered a financial genius and was popular.

## STOMACH PAINS QUICKLY ENDED BY NEW KONJOLA

Illness Of Lifetime Presents No Problem For Famed Compound—Detroit Man Enthusiastic

MR. ERNEST DIONNE

"A plasterer by trade, it is necessary for me to keep feeling fit," said Mr. Ernest Dionne, 198 Vernon Highways, West Detroit. "This has been practically impossible for me because I have suffered from stomach trouble for the past twenty years. In fact, I have been handicapped by a weak stomach all my life. I have lived in Detroit since 1923 and during those years, and for many years previous, I tried many medicines and treatments but none helped me."

"I read of Konjola and its merits in the local papers. I can truthfully say that it has relieved me of all my stomach disorders. I am glad to tell all my friends about Konjola and I am certainly happy to recommend it to all who suffer."

Konjola is a medicine that, when given a fair trial of from six to eight bottles, will amaze sufferers from ailments of the stomach, liver, kidneys and bowels, and rheumatism, neuritis and nervousness. Every day of delay means just an added day of suffering.

Konjola is sold in Grayling, Michigan at the Mac & Gidley drug store and by all the best druggists in all towns throughout this entire section.

## Inside Information

A convenient arrangement of the kitchen, with work centers in a logical sequence reduces the time spent in it.

When introducing new foods into a child's diet, give only one food at a time, and that in small quantity, well cooked and nicely served.

A 3-year-old child can be taught to carry a plate of food or a glass of milk safely, and takes great delight in doing so. He learns self-reliance and independence. He can carry a tray of lunch if it is not too heavy and play at "cafeteria."

To protect the top of blankets and quilts from being soiled, bind the edge with a piece of cheesecloth or other inexpensive material about 16 inches wide, matching the blanket in color. When this is soiled it can be easily removed and laundered.

Always cookokra in an agate, porcelain, or earthenware vessel. If a copper, brass, or iron cooking utensil is used for this vegetable, the pods will be discolored and possibly made less wholesome.

Soaking a slice of very salty ham in buttermilk or sour milk seems to make it more tender when cooked, as well as to take out some of the salt.

In selecting your Thanksgiving or Christmas turkey look for the tag that indicates U. S. Government graded birds. "Prime," "choice," and "medium" are the usual grades shown by a small round tag attached to the leg.

Whipped cream dressing is especially good with cabbage salad, but it may be used for any salad you like. To make it, beat half a pint of heavy whipping cream until stiff. Add 4 1/2 tablespoons lemon juice, 2 tablespoons of fresh grated horseradish, a grating of onion, a few drops of tabasco, and salt to taste. A dash of cayenne pepper may be used instead of tabasco. If the horseradish is in vinegar use only 2 tablespoons of lemon.

Roast a young turkey on a rack in an open pan without adding water. When the outside has been lightly browned in a hot oven reduce the temperature to moderate and continue to cook a 10 pound to 12 pound turkey for about two and a half hours longer. A mature bird requires an hour or more longer than a young one and it needs to be covered part of the time.

In treating grease spots with cleaning fluids, place a clean pad under the material to be cleaned, a white blotter on top of that, and the garment with the right side next to the blotter. Work lightly from the center, and spread the moisture unevenly into the surrounding goods. "Feathering" out the liquid into the fabric helps to prevent a ring from forming.

## BIGGER AND BETTER

## THE NEW CHEVROLET SIX HAS MANY IMPROVEMENTS

The introduction of the new Chevrolet Six marks the most impressive forward step in Chevrolet's twenty-year record of constant progress and improvement. For this Bigger and Better Six offers new beauty, new luxury, new completeness and new quality—yet it sells at lower prices!

The improvements in the new Chevrolet Six begin at the smart new chrome-plated headlamps and extend throughout the entire car. The radiator is deeper and unusually efficient. Due to the increased wheelbase, the lines are longer and lower, giving an air of exceptional fleetness and grace. And the new Fisher bodies

combine with this more attractive exterior appearance, a new degree of interior luxury.

The chassis of the new Chevrolet Six has also been refined and advanced in a number of different ways. The frame is heavier and deeper. There is a smoother operating, long lived clutch; a sturdier front axle; an entirely new steering mechanism; an easier shifting transmission.

And along with these improvements, Chevrolet offers a 50-horsepower, six-cylinder motor—four long semi-elliptic springs—four hydraulic shock absorbers—a safety gasoline tank—and an economy of operation not surpassed by any automobile.

## NEW CHEVROLET SIX

IT'S WISE TO CHOOSE A SIX

Alfred Hanson, Grayling, Mich.

## "Join Red Cross," Urges Vice President Curtis

America's prominent citizens join in urging all men and women to become members of the Red Cross during the period of the annual roll call from Armistice Day to Thanksgiving Day.

The Honorable Charles Curtis, Vice President of the United States, says: "The American Red Cross is in a position to do more for the relief of those stricken by misfortune than any other organization in the world. Its splendid work has done much to bring a friendly feeling in all parts of the world for the people of our country because they sustain the American Red Cross. This wonderful organization is entitled to the liberal support of our people."

The Honorable Andrew W. Mellon, Secretary of the Treasury, says: "No one can predict when or where disaster may occur or acute emergency arise. The American Red Cross represents our community insurance against such misfortunes. The organization stands ready at all times to render speedy relief to any stricken area in the relief of disaster in foreign countries. The Red Cross is the agency which carries on when emergency has disrupted customary modes and means of life in a community."

## Six Foreign Countries Receive Red Cross Aid

Relief was given by the American Red Cross during the year in six foreign nations in disasters ranging from a tidal wave in Newfoundland, an earthquake in Persia, floods in France, to help the refugees from Russia and prevention of a smallpox epidemic in Costa Rica.

The \$5,000 Red Cross contribution to Newfoundland, following the tidal wave, which took twenty-six lives and destroyed many homes and fishing boats, was the first from an outside country to reach the distressed people. The sum of \$5,000 was given to the fund for the relief of the Mennonite refugees of German descent, who had determined to leave Russia for new lands. About 13,000 passed through Germany, where the German Red Cross, aided by Red Cross societies of other nations, helped them. The majority are being transported to new countries in the western world and the American Red Cross has transmitted contributions from individuals in this country.

When Costa Rica was menaced by a smallpox epidemic, the American Red Cross sent fifty thousand tubes of vaccine, in two airplane loads, undoubtedly saving the country from a serious outbreak of the dread disease.

Rocks Fight for Homes

A colony of rocks will usually fight hard for its old haunts. Trees may be felled, but the next wood will be seized. The colony may be persecuted with the gun, but the first pause in the attack is followed by rigorous new-building.

## TELLS BEST OIL FOR WINTER USE

NEW YORK.—An old theory that motorists should use lighter oil when cold weather strikes has been exploded by the American Research Foundation which has just issued a bulletin explaining why it is a mistaken notion that winter driving necessitates lighter oil than summer driving.

The reasons, as pointed out in the bulletin, are: "First, in cold weather the clearance between the piston and cylinder is greater and in starting the gasolene leakage will be much greater than at its normal operating temperature. "Second, leakage of gasoline past the piston rings into the crank case has a greater effect upon the diluting of the motor oil in cold weather than in warm. "If thinner oil, therefore, is used in cold weather to facilitate starting, this oil will become too thin under operating temperatures to properly lubricate the engine parts during the operation," the bulletin states. "The lubricating oil will also be too thin to produce the proper seal on the piston rings, thereby further increasing the gasoline leakage and resulting in loss of power."

## GLIDERS SOAR BY SLIDING DOWN AN UPFLOWING WIND

Tobogganing on air is the way a meteorologist of the United States Department of Agriculture describes the art and sport of soaring in a glider. "Soaring," says W. J. Humphreys, of the Weather Bureau, "is tobogganing down an upflowing wind just as surf riding is tobogganing down the front and rising side of a traveling wave. Supporting breezes are above the crest and on the windward side of every hill and mountain, beneath the forward portion of the cumulus cloud, and even over the waves of the ocean, as the matchless albatross unwittingly reveals." But, except in the case of the cumulus cloud, these supporting currents are rather shallow and dependent entirely on the direction and intensity of the surface winds.

Doctor Humphreys points out that a knowledge of the air and its ways is helpful and useful to any aerial pilot, but in soaring it is absolutely essential. Successful operators of gliders who are able to stay aloft for hours must know where to hunt for ascending currents of air and to glide from one lifting current to another without losing too much altitude in the change.

ber of votes is elected County Clerk for a term  
of two years, commencing Jan. 1, 1931.  
That William Ferguson having received the largest  
number of votes is elected County Treasurer  
for a term of two years, commencing Jan. 1, 1931.  
That Eva Reagan having received the largest num-  
ber of votes is elected Register of Deeds for a term  
of two years, commencing Jan. 1, 1931.  
That Marius L. Insley having received the largest num-  
ber of votes is elected Prosecuting Attorney  
for a term of two years, commencing Jan. 1, 1931.  
That Merle F. Nellist having received the largest num-  
ber of votes is elected Circuit Court Commis-  
sioner for a term of two years, commencing  
Jan. 1, 1931.  
That Emil Kraus having received the largest num-  
ber of votes is elected Coroner for a term of  
years, commencing Jan. 1, 1931.  
That Harry Sorenson having received the largest num-  
ber of votes is elected Coroner for a term of  
years, commencing Jan. 1, 1931.  
That E. Houghton having received the largest num-  
ber of votes is elected County Surveyor for  
term of two years, commencing Jan. 1, 1931.  
That C. J. McNamara having received the largest num-  
ber of votes is elected County Road Commis-  
sioner for a term of two years, commencing Jan.  
1931.  
In Witness Whereof, We have hereunto  
set our hands and affixed the seal of the  
Circuit Court for the County of Cr  
ford this seventh day of Novembe  
in the year one thousand nine hund  
thirty.  
C. S. Barber,

within three months from the date of this order, or default will be taken and that this order be published as required by law.  
Dated, October 10, 1930.  
GUY E. SMITH,  
Circuit Judge.

Thursday, November 24, 1907

Gen. McCullough, with hunting and sports home a like over the first of the week. For some time it will take a little longer to get cleared.

The Citizens Band will give a concert at the Opera House Thanksgiving evening. It is needless to say there will be good music and good singing.

There will be no service at the Danish Lutheran Church Thanksgiving day or next Sunday. Rev. Knudgaard

having been suddenly called to bedside of his father, in Kansas, is not expected to live.

A little flurry of winter, Tuesday morning, made everybody look anxiously at their woodpiles.

A. Peterson begins to feel at home in his new quarters, and will have his Christmas steak in on time, if that ever.

John Bigham, of Maple, former father of Mrs. Conrad Howard, was on his way to camp last Sunday, in the highway and died in a

diagnosed by Dr. O'Neill of Frederic.

Miss L. E. Williams reached home last Saturday evening after her long summer visit in the south part of the state.

Born-To Mr. and Mrs. Elmer Batterson, Nov. 22nd, a daughter.

Elmer struts about as though he owned the whole R. R.

A good many deer have been shipped by the hunters during the past two weeks, but we think not so many as usual. No snow, and noisy in the dry woods.

Miss Kathryn McPhee entertaining the girls of the Vainhalla Club last Saturday evening, at the close of which a Dutch lunch was served. A some of the girls will be absent this week their next meeting will be Saturday evening, Dec. 7, at the home of Miss Godelie E. Pond.

We like to publish the success and prowess of our local huntamen. No one's Hugh Oaks who takes the cake. One day last week he was on the hills beyond Portage and prying

through the bushes when he saw a deer lying down, and taking care not to alarm, he fired, and as the animal did not run, he fired a second shot into him. As he lay still, he crept toward him with gun ready for a third shot, but found he had been dead a week or more.

Nellie Henderson of Beaver Creek, 25 years of age—in some way set fire to one of her dress sleeves a few days ago and her arm was terribly burned from the wrist to the shoulder.

F. E. McIndlen of Frederic has bought the merchandise stock, turnings and fixtures of the big store of J. J. Peters, and will give it personal supervision, which insures the north part of this county one of the best places in the state for general trade.

Mrs. Luke Tryon, with her daughter visiting here for the first time in 31 years, the guest of Mrs. J. S. Hamilton. Mrs. Tryon and her husband was the fifteenth family to come in Grayling, and lived here for several years, building what was then a pretentious home, being the building used by Benson for some years as a millinery shop and residence, and now a part of the Russel Hotel. She is surprised with the many changes from a wilderness to the beautiful village now here.

**Lovells Locals**  
(23 years ago)

T. E. Douglas went to Detroit Monday.

Joseph Traux shipped another carload of fat sheep and lambs Wednesday.

While Dr. Underhill was at Grayling Wednesday some miscreant killed this bird dog. The Dr. says he will pay a reward of \$5 for the dog's body.

Our organizer has a channel for his name. It is now Mrs. Mamie Kennedy. We hope she will continue to

for the sabbath school and have to come too.

Nowell Underhill was at the court-est Wednesday and bought a gun. The T. & E. Douglas Co.'s new state mill at Dam 2 is now running full time.

John Boyce and wife Sundayed at Mrs. Dyer's.

Mrs. W. Goodell was doing business at Lewiston Saturday.

**HUNGRY HENS MEAN MORE EGGS**

The hungry hen means profits for a poultry raiser, while the hen without an appetite is the loser of the flock as far as egg production is concerned. It is the last 10 or 20 per cent of feed the hen consumes that fills the egg basket. The rest of the feed is required to maintain a bird.

The farmer who induces his hens to eat more feed automatically causes them to lay more eggs. Five suggestions for boosting feed consumption and thereby increasing egg production have been made by R. E. Croy, extension specialist in poultry for the State University, with the full endorsement of leading poultry authorities.

The suggestions are:

1. Use artificial lights during the winter months so that the hens will have more time in which to eat. However, if the consumption of feed is not increased, the lights will be of no benefit.
2. Feed the largest part of the ration at night. This has a tendency to keep the birds hungry during the day and hence causes them to eat more mash. Grain should be fed in hoppers rather than in the trough.
3. Provide a sufficient amount of

per space—one foot for every five  
six birds. In every flock there  
always timid birds that will not  
—unless there is sufficient hopper  
ce.  
Feed fresh mash each day at the  
one hour. When the hoppers are  
d with a quantity of mash suf-  
for several days, the birds  
pick it over, eating only what  
like best and leaving the rest.  
When they reach the leaveings, feed  
consumption and egg production both  
slump.  
Use a wet mash. Hens will eat  
resh mash when it is moistened with  
k, just as a small boy will eat  
read if it is spread with jam.  
Still another factor increases egg  
production, authorities agree, and it  
good poultry stock to begin with.  
When replacing their old hens, farm-  
ers are assured of good stock if they  
chance baby chicks from a reliable  
hatchery. Leading hatcheries of the  
United States are operating together  
under the slogan "Hatchery Chicks  
Greater Profits" to insure better  
stocks and square dealing.

appearing by the affidavit of F. Nellist, attorney for plaintiff, that the defendant, Grayling, Twin Lakes and Northeastern Railroad Company, cannot be found, that deponent is informed that Grayling, Twin Lakes and Northeastern Railroad Company is no longer in existence.

It is the motion of Merle F. Nellist, attorney for plaintiff, it is hereby ordered at the Defendant, Grayling, Twin Lakes and Northeastern Railroad Company, cause its appearance to be made in this cause within three months from the date of this order, that if no appearance is made, default will be taken, and this order be published as required by law.

Dated, October 10, 1920.  
GUY E. SMITH,  
Circuit Judge.

**STATE OF MICHIGAN**

**Circuit Court for the County of Crawford, in Chancery.**

Whittaker, Plaintiff, vs. William Whittaker, Defendant.

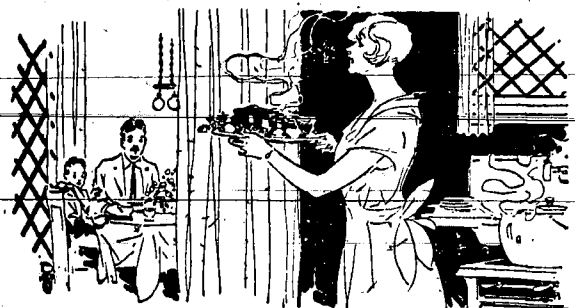

It is pending in the Circuit Court of the County of Crawford, in Chancery.

It appearing by the affidavit of F. Nellist, attorney for plaintiff, that the whereabouts of William Whittaker, the defendant, is unknown to plaintiff, nor does plaintiff know in what state or country defendant resides, as appears by affidavit on file in this cause.

It is the motion of Merle F. Nellist, attorney for plaintiff, Iva Whittaker, that plaintiff order that the defendant, William Whittaker, cause his appearance to be entered in this cause, in three months from the date of this order, or default will be taken, that this order be published as required by law.

Dated, October 10, 1920.  
GUY E. SMITH,  
Circuit Judge.

## A Perfect Dinner can only be cooked with PERFECT UTENSILS

Roasting pans that keep the flavor in are essential to savory roasts. We have them in enamel and aluminum. Pots often wear out without springing leaks, and should be replaced by new ones. We have a variety of sizes and colors, at low prices.

## Local Happenings

THURSDAY, NOVEMBER 27, 1930

Today is Thanksgiving.

St. Mary's Altar society will give a bake sale, Saturday, Dec. 13.

Mrs. Frank Malloy is visiting her mother in Chicago, leaving last week.

We guarantee to fit your feet with Enna Jettick health shoes, sizes 2 to 10, AAA to EEE, at Olson's.—Adv.

Miss Ethel Taylor, who is taking a course in chemistry at Ferris Institute is expected home for Thanksgiving.

Thomas Brennan, Jr., and Don Brady of Saginaw returned home Sunday after being here for several days deer hunting.

Remember the offering for the benefit of the Grundtvig Memorial church at the Danish Lutheran church next Sunday.

Tracy Nelson took a week's vacation from his duties at the Grayling Mercantile Co. store last week and spent the time hunting.

Mr. and Mrs. Guy Reid, daughter Dorothy and son Owen of Twinning were guests at the James Reynolds home over the week end.

Mr. and Mrs. Paul Ziebell left Tuesday morning for Toledo to spend Thanksgiving with their daughter, Mrs. Fred Catlin and husband.

There will be a dance at the Beaver Creek Town hall next Saturday night, November 29th. Last dance of the season. Everybody welcome. Good music.

The ladies of the Danish Lutheran church will hold a bake sale at the Hans Petersen grocery on Saturday, Dec. 6. There will be everything in Danish baked goods. 11-27-2

Mr. and Mrs. Robt. Downing and three children of Bay City were guests on Sunday of Dr. and Mrs. C. R. Keyport. Mrs. Downing and Dr. Keyport are sister and brother.

Claude Reynolds and Joseph Pasco returned to Muskegon Heights Sunday after spending the week here hunting, but were not lucky enough to fill their deer licenses.

Ira Baty and son Maynard, who have been guests at the Archie Kennedy and E. Wilkinson homes for several days, deer-hunting, returned to their home in Ferndale Monday morning.

Mrs. Efner Matson and son Farnham enjoyed a pleasant trip over the week end that took them to Battle Creek, Detroit, Flint and other places. At Battle Creek they visited Miss Elizabeth Matson, who is attending the Battle Creek College.

Just to remind you, Christmas time is fast approaching and a year's subscription to the old home paper would be most welcome to your old Grayling friends—either at home or away from home. It would be enjoyed every week for the next year.

"Wildwood," the cottage of Miss Jennie Ingley at Lake Margrethe, is now lighted with electricity. The wiring was finished just recently. This is one of the most comfortable cottages on the lake and its being electrically lighted is another nice improvement.

For the second year in succession Don Reynolds, manager of the local Michigan Public Service company office has won the prize for selling the most lamps during an annual lamp campaign. The contest is put on by the National Lamp Works and Don headed the list for the Cheboygan district this year with the sale of 161 cartons. This district takes in Grayling, Gaylord, Pellston and Cheboygan.

P. G. Zalsman made a business trip to Holland Saturday returning Sunday.

Get a pair of hose free. Ask how, at Olson's. Adv.

Mr. and Mrs. Guy Bradley and family of Pleasant Ridge, Mich. will be guests of Mr. and Mrs. Chas. Tromble over Thanksgiving.

If more convenient, you may send your contributions for the Grundtvig Memorial to Rev. P. Kjoehede or to one of the trustees before Dec. 4.

Attorney and Mrs. Marius Insley and little son spent the week end in Detroit, taking in the M. S. C. U. of football game at Lansing Saturday.

Mr. and Mrs. Oscar E. Wilkinson of Detroit spent the week end with the latter's parents, Mr. and Mrs. O. P. Schumann. They returned home Sunday evening.

Roland Klepper and Miss Vivian Weston of Bay City arrived Friday and spent several days here, guests at the home of Henry Jordan. Mr. Klepper came to hunt deer.

Keep in mind the season's opening basketball games that will be played next Thursday night, Dec. 4 at the local gymnasium. There will be two games, the High school vs. Atlanta and the Lumberjacks and Atlanta Independents.

Grant Thompson is the new telephone operator at Frederic, taking the place of R. K. Gunther. The Thompsons, who have been residing at Kawkawin will move to Grayling to make their home, residing in the Thompson house across from the old M. & N. E. depot.

Frank Canfield, a former resident of Grayling, left for his home in Detroit Sunday taking with him a 10-point buck. Mr. Canfield was here in company with R. O. Burrell of Detroit, coming for the opening of the season and enjoyed hunting in the Crawford county wilds once again.

Mrs. Liland Smock entertained twelve boys and girls last Saturday in honor of her little son Robert's birthday anniversary. Bobby said rhymes and the little tots had a happy time. A birthday cake and other good things were enjoyed by the children and they received baskets of candies as favors.

One of Grayling's most recent converts to the ancient and honorable game of golf is in line for congratulations. M. A. Bates shot a 51 over the difficult and sporty Red Cedar course in Lansing last week end. Principal LaVere Cushman also played with him and while he did not break par he did ruin a respectable club on the ninth. Par for the course is 37.

James Wilson, residing near Waterford Ranch on the Manistee river is just strapped in a strait jacket. He was brot to Grayling Saturday by the poor commissioner of Frederic and placed in the County Infirmary, but he was so extremely violent that he had to be put in the county jail. Here he proceeded to smash up all the property in the cell, including the windows. Physicians say it is a case of delirium tremens.

On next Thursday evening, will convene the second district quarterly meeting for the Alpena district at Grayling, Free Methodist church. Some six or more churches will be represented by pastors and people, and services will be held three times a day after the first evening. The meeting will be in general charge of Rev. A. D. Warren, district elder of the Alpena district. A cordial invitation is extended to all to attend these services and see how the church looks with its new interior decorations.

"GRUNDTVIGS MINDEKIRKE"

The Grundtvig Memorial church is being erected in Copenhagen, Denmark. This structure has created a great deal of interest far beyond the boundaries of Denmark. Also in the United States, many men in different walks of life have taken notice of this unusual architecture. N. F. S. Grundtvig, a Danish theologian, historian and poet who was a leader among his people in the nineteenth century, died Sept. 2, 1872. The impression he made on the Danish church life was to a considerable extent and has not been forgotten up to this day. In fact it is impossible for anyone to get in touch with the Danish Lutheran church of today without feeling the influence of Grundtvig. This man knew his people and his view on Christianity was accepted as sound and his message touched the heart of the Danes.

The treasure of thought displayed in the many hymns inherited from Grundtvig has also enriched the Danish Lutheran church in America. It is only natural therefore that a desire to help in the erection of this great memorial should come forth from the people of Danish descent in America and so it did. We learn that a manufacturer of organs, Mr. M. P. Moller, Hagerstown, Md., has pledged himself to donate an organ at the cost of \$80,000 provided the church is completed in three years and the committee is now working hard to fulfill this requirement.

At the church convention held at Seattle, Wash., last June, it was voiced and agreed to urge all Danish Lutheran congregations to arrange for offerings in their respective churches. Sunday, Nov. 30, is the day set for this year and to continue with these offerings on the first Sunday in Advent for the next three years. Our local Danish church will join in this movement and request the cooperation of its members.

Enna Jettick shoes look and fit better and wear longer than any shoes at the same price. Sold only at Olson's. Adv.

## Men's Fine Suits

at a New Low Price of

**\$18<sup>50</sup> to \$29<sup>50</sup>**

IF YOU want a suit that is tailored precisely to your figure, of pure woolen fabrics in the new shades of brown, blue and grey, lined with long-wearing silk-finished materials, new in cut and draping, and sells for this low figure, you had better come over now.

## Grayling Mercantile Co.

Phone 125—THE QUALITY STORE—Grayling

Frank Tetu was in West Branch Monday.

Mrs. Eva Reigan and daughter Elaine will visit relatives in Bay City Thanksgiving.

Miss Irene McKay of Mercy Hospital enjoyed the week end in Detroit, driving down with Mr. and Mrs. D. E. Matheson of Roscommon, who went to visit their daughter, Miss Faye, who is taking a special course in child nursing at the Children's Free Hospital there.

Ralph Gouine, meter tester for the Michigan Public Service company, spent the week end at his home in Cheboygan. Mr. Gouine has been in Grayling for several weeks testing meters.

Mrs. Saloma Simpson arrived in Grayling last Thursday and will make her home here for the winter, taking up her abode with Mrs. Almond Barber. Mrs. Simpson lived in Grayling for so long that this seems to her the only place she feels at home. She had been visiting in Flint and her son Harry of Monroe accompanied her, here spending a few days hunting.

Miss Margaret Warren left Wednesday afternoon for Detroit to spend Thanksgiving with her mother.

Mrs. Chas. Tromble was hostess to the ladies of the Bridge club at an independent basket ball team and luncheon at her home Saturday afternoon. It will be under management of our

noon. Three small tables were arranged very nicely for the affair. Miss Jim in charge there shouldn't be any trouble in arranging for games between their team and the Grayling Lumberjacks. With two fast teams functioning in this part of the state there should be plenty of that kind of sport to interest the people who like good basketball.

Grayling is to have boulevard lights for its main street. Underground Alfred Hermann and daughter Barbara Elizabeth and Principal LaVere and thus remove these ugly disfigurements. Grayling has enjoyed boulevard lights for nearly two years. The gentlemen of Education, the gentlemen of the Telephone company Mr. and Mrs. Bates were guests at Barber. Mrs. Simpson lived in Grayling for so long that this seems to her the only place she feels at home. She had been visiting in Flint and her son Harry of Monroe accompanied her, here spending a few days hunting.

When you think of zippers or rubbers, think of Olson's. Adv.

See the new \$5 and \$6 slippers for day afternoon for Detroit to spend Thanksgiving with her mother. Adv.

## RIALTO THEATRE TO SHOW HELL'S ANGELS

"Hell's Angels," the most lavish screen enterprise of all time, will appear at the Rialto theatre here Tuesday, Wednesday and Thursday, Dec. 2, 3 and 4.

The spectacular air thriller was produced and personally directed by Howard Hughes, president of the Caddo Company, at a cost of \$4,000,000, and took three years to complete.

"Hell's Angels" is the supreme sensation of the film industry, breaking house records wherever shown. Filming of "Hell's Angels" began October 31, 1927, following six months of preliminary research and preparation. Shooting proceeded steadily for nearly three years, with 18 months alone devoted to aviation and Zeppelin sequences.

Ben Lyon and James Hall, principal players in this stupendous drama of air-war, are supported in the feminine department by Jean Harlow, a comparatively unknown actress who appears in her first screen role in "Hell's Angels."

Others who appear in the roster of players include John Barrow, Lucien P. Val, Jane Winton, Evelyn Hall, Douglas Gilmore, Stephen Carr, Lena Malena and Wendell Standing. Producer-Director Hughes, himself an expert licensed pilot, has established a record for all time in motion picture extravagance in the filming of his air scenes. On air scenes alone he has expended nearly \$2,000,000, and the total distances covered in the sky battles, was exactly 227,000 miles.

More than 20,000 extras were employed in the various mob scenes of the picture. Total cost of "Hell's Angels" approximates \$4,000,000.

The largest air-fleet ever assembled except by governments, participated in the picture. The aerial squadron comprised 87 planes, including more than 40 true war-type ships. The air fleet included German Fokkers, British T. M. S. E. S. A. Avros, De Havilland, Sopwies, a German Gotha bomber, and a Zeppelin.

A total of 137 pilots, and as many mechanics, were employed during the 18 months filming of action above

the clouds. The pilots included every stunt flyer and ex-war ace in America. Thirty-five cinematographers, including 26 aerial cameramen, were required to film this great picture. Eight separate locations were maintained for the aerial sequences. They included the main flying base at Caddo Field, Van Nuys; a training school camp at Inglewood; a German field at Chatsworth; and other locations at Santa Cruz, Encino, Ryan Field, San Diego, March Field, Riverside and Oakland Airport, Oakland, California. At the latter airport the "Hell's Angels" sky fleet was in action for more than four months filming numerous air battles in which 50 planes participated simultaneously.

## SCHOOL NOTES

### Students Have Six Weeks' Exams

The students of Grayling High School tackled their brains over another series of hard problems that the teachers enjoy to give. The exams were held Thursday and Friday of last week and were thoroughly enjoyed by all.

The students are not the only ones to suffer however for one must think of what the teachers have to do when they correct papers.

### Chemistry Class Experiment on Chlorine

Mr. Burns and Miss Lewis have been kept busy this week watching over their two respective classes in Chemistry. Chlorine is a very dangerous gas. The student needs pay close attention while working on it. If chlorine is slightly inhaled it will give illness similar to a very bad cold. A deep breath will cause death.

So far no serious accident has happened and we all hope the good luck lasts.

### Lotteries Made Illegal

By act of congress in 1890 trans-mission through the mails of lottery advertising and use of interstate letters addressed to the lottery or its agents was prohibited. By an act of congress in 1894 importation of lottery tickets or advertising matter relating to lottery tickets into the United States was forbidden.

## PERRY GREENWOOD WRITES PRIZE SANTA STORY

The Bay City Times has been conducting a Santa Claus story contest and in their Sunday edition announced the winner to be Perry Greenwood, son of Rev. and Mrs. Greenwood of this city. Out of 914 letters submitted, Perry's was selected as the best, and he will receive a prize of \$15 in cash for his efforts.

In reporting the contest the Times says, in part:

"Perry Greenwood, 11, Grayling, won the first prize of \$15, offered for the letter which should be judged the best. The thought expressed in Perry's letter is a nice one—for Christmas, we think. Here it is:

"My daddy is a preacher and he tells me there is a Santa Claus."

"But he says that Santa is a spirit that gets into people's hearts and makes them send nice gifts and do kind things for people."

"And I know there is a real Santa for everybody in our house acts so happy at Christmas time and Santa Claus must come into our hearts as daddy says he does."

"And I'm hoping that Santa comes real soon now."

"I want him to find daddy and mamma with lots of money for when he is poor they help him buy things for us. Yes, Santa Claus editor, I know there is a real Santa Claus, for he always comes to our house."

Marion Parent, 8, Melvor, was awarded second prize.

## USED WEHNE'S FARM FOR LAND-ING FIELD

Mr. E. P. Hurd of Detroit and his pilot, L. F. Barr, landed at the Grayling airport on Nov. 14th for refueling and then returned the next morning to the farm of Mr. Conrad Wehnes near Eldorado which they utilized as a landing field. This trip was made for the purpose of hunting deer as the guests of Mr. Drinkhaus, Mr. Hurd's uncle, who maintains a cabin on the AuSable.

The airplane used was a small low wing monoplane with a sixty horsepower engine, seats two people, and is manufactured in Detroit by Mr. Hurd.

Mr. Barr, the pilot, will perhaps be remembered by some of the citizens of Grayling as the man who entertained them with parachute jumps for the past three years while a member of the National Guard in camp at the airport. He expressed satisfaction with Mr. Wehnes' farm as a landing field, saying it was equal to many airports he had seen.

Mr. Hurd took home a fine ten-point buck.

## MICHIGAN NEWSPAPERDOM MOURNS DEATH OF VETER-AN PUBLISHER

George L. Adams of Fowlerville, Who Lived His Religion Every Day, Goes to His Reward

Monday, November 3, brought universal sadness to the hearts of members of the Michigan Press association when tidings of the death of George L. Adams winged its way from sanctum to sanctum and from home to home around the state. The Supreme Harvester had gathered the golden grain, and surely it was a golden crop. No man ever held the highest honor and respect of all who knew him more than did George L. Adams, "Dad" Adams to all Michigan newspaperdom. That he was held in the same love and esteem by the people of his home town and community is known. It was demonstrated in 1925, when the people of the community joined with the Michigan Press association in celebrating the completion of half a century for Mr. Adams as owner and publisher of the Fowlerville Review, the home town paper. It was demonstrated again Friday, November 7, when newspaper people from various sections of the state joined again with the home town people in paying tribute, but this time in sadness and sorrow around his bier. Fowlerville is better known because for a half a century George Adams lived and worked there. Michigan newspaperdom has better and cleaner newspapers, with higher ideals, because for fifty years their editors and publishers had George Adams to give them not only good advice but an upright and helpful example from which to pattern.

No Michigan newspaper man was ever received finer editorial tribute of love and respect than has been paid universally to the memory of George L. Adams. The aged mother should assuage her grief in the memory of having given such a son to the service of the world; the bereaved wife has had the richest of earthly rewards in a life companionship with so kindly and sincere a soul—Michigan Bulletin.

## UNIFORM POLICY FOR DEER HUNTING

Leelanau County has been closed to deer hunting for one year by the Conservation Commission. Reports were received that a few deer had moved into the county during the past summer. So far as is known, these are the first found in the county for about fifteen years. Within another year the Department of Conservation hopes that a definite and uniform policy will be adopted relative to deer hunting in all of the areas of the southern peninsula.

During the past summer and this fall the Game Division has been making an inventory of deer cover and the distribution of deer in lower Michigan. When this survey is completed, the Division expects to have the essential information on which to base a general policy to cover all of the deer territory of the lower peninsula, some of which is now closed for one or two years.

## Virginia's Pre-Eminence

The nickname given Virginia, the "Old Dominion," was taken from early documents, which referred to it as the ancient colony and dominion.

## PILES CHINESE REMEDY QUICKLY ALLEYS PAIN AND ITCHING

If you suffer from itching, blind, protruding or bleeding piles you are likely to be annoyed at the soothing, healing power of the rare, imported Chinese Herb, called "Fong-Ni," or Nixons' Chinapoin. It's the newest and fastest acting treatment out. Brings ease and comfort in a few minutes so that you can work and enjoy life while it continues to soothe, heal and cure. Don't delay. Act in time to avoid a dangerous, chronic, healing action. Put your piles under complete control. Guaranteed to satisfy completely and be gone 100 times the small cost of your money back.

Sold by Mac & Gidley, druggists.

## Farm Notes

It is poor economy to cut the tops out of sound, large trees to make Christmas trees. To do so destroys the value of the trees for timber.

Moth Balls or naphthalene will prevent weevils or grain moths from injuring seed corn. Be sure the corn is thoroughly dry. Put it in a tight mouse-proof container, enclosing 1 pound of moth balls or naphthalene to each bushel of corn.

If the layers in the poultry flock are confined to the poultry house or if there is little sunshine in late fall and winter, it is well to add about 1 per cent of cod liver oil to the mash ration. Use 1 pint of oil to each 100 pounds of mash. Don't add oil to more than two weeks' supply of feed.

A horse needs from 10 to 12 gallons of water daily, a high-producing dairy cow as much as 25 to 40 gallons, a 2-year-old beef steer at least 10 gallons, and a hog from 1/2 to 1 1/2 gallons, depending on the feed. Sheep should get from 1 to 5 quarts a day, depending on the feed, the temperature, and the amount of dew or rain, if they are on pasture. A flock of 50 hens in laying condition requires from 4 to 6 quarts. Keep water for hogs and poultry where they can drink whenever they want it.

The most effective moisture-resistant coatings for wood are those containing aluminum leaf between coats of other materials such as paint, varnish, or the like, says the Forest Service of the U. S. Department of Agriculture, which has made hundreds of experiments in the last 15 years in a search for wood coatings that will exclude moisture. For exteriors, linseed oil paint is effective for use with the aluminum leaf because it stands up well under weathering. For interiors, use a varnish, enamel, or paint with the leaf, says the Forest Service.

It is bad management to let the farm horse lose weight during the winter and then try to bring it back to normal by heavy feeding before spring work starts. Farm horses (except brood mares or growing stock) do well in winter on a ration consisting largely of the coarser hays, straw, or corn fodder. If the horse drinks plenty of water, it will increase the utilization of these dry roughages. Supplement the coarser roughages with a legume such as alfalfa, clover, soybean, or cowpea hay, but feed these sparingly. If no legume is fed, give a small amount of grain. One or two bran mashes a week or a little linseed meal each day helps to keep the horse's digestive system in good condition.

The "tuber-inducing" method of improving seed potatoes is recommended by the U. S. Department of Agriculture as the most effective way of eliminating diseased, weak, and low-yielding tubers from seed stock intended for planting in the seed plot. Select tubers weighing from 7 to 9 ounces and number them for identification. Remove a seed piece or set from each one—preferably from the seed end, although any strong eye will do. Plant the sets in pots, a greenhouse bench, or hotbed. This is usually done in winter. Observe the plants carefully for signs of virus diseases such as the various mottos, leaf roll, spindle tuber, giant bill, and yellow dwarf, and discard all seed that is diseased. Plant the remainder of the healthy indexed tubers in a seed plot for increase.

Ventilation for Stables  
Do not use hay chutes as ventilating flues for the stable. In cold weather, warm moist air condenses in the hay in the mow and often makes it unfit for feeding and may possibly cause spontaneous ignition. Stables should be ventilated by insulated flues extending through the mow and connected to ventilator heads at the ridge. If there is likelihood of the hay heating, hay mows may be ventilated by slatted openings, open doors, and ventilators in the roof.

Profits in Christmas Trees  
Christmas trees growing offers the farmer whose acre is properly located with reference to market a side line of earning extra income at a time of year when it is particularly acceptable. It also provides a way for utilizing odd corners of tillable land not needed for other crops and small areas of waste land suitable for reforestation. Before starting a plantation, one should carefully consider the market for the trees and the competition from wild or natural-grown trees and from other plantations, says the U. S. Department of Agriculture. The Eastern and Central States generally offer the best opportunities. The ideal Christmas tree is symmetrical with a dense conical crown, is fragrant, and retains its foliage in a warm room. The spruces and true firs combine many of these qualities. Select species that grow fairly rapidly.

Virginia's Pre-Eminence  
The nickname given Virginia, the "Old Dominion," was taken from early documents, which referred to it as the ancient colony and dominion.

## Can You Solve This Puzzle?

When Captain Miles Standish sent John Alden to ask Priscilla Dean to marry the captain she asked "Why don't you speak for yourself, John?"

So it was that John Alden and Priscilla Dean became engaged. Captain Miles Standish then observed, "If you want a thing done well, do it yourself."

You must do things yourself in order to win one of these fine Booster Contest Prizes. Prove your ability to do things yourself by solving this puzzle and you will be eligible for this great opportunity.

There are many ARROWS in this picture. Find twenty or more of them and mark them in colored pencil or ink. Then send the picture to

## Michelson Memorial Church

John Wilfred Greenwood, Minister

Sunday, November 30, 1930

11 a. m.—"Called of God to be an Internationalist."

7:30 p. m.—"On the trail with a Japanese."

The Dribbler  
A certain coach had a football team. The captain was an Abyssinian. His fullbacks were a Turk and an Armenian; the halfbacks included a Syrian, a Christian, a Greek, other Turks, a Persian, and a Copt from Egypt. When asked by someone how he handled a team like that, he replied: "I succeed when I have taught each member how to pass."

And that leads us to observe that the "Dribbler" who wants to go down the field dribbling the ball so that he can have all the glory for himself, is the team's greatest handicap. And what spells defeat for a football team is the same factor that paralyzes the success of the Christian church, and the community and the world. The Dribbler individual or the Dribbler nation has always been a curse. Success can never be achieved until the Dribbler quits dribbling and learns how to pass.

Of course, this suggests a line of St. Paul, penned to a group of Dribblers in the church at Corinth—"The hand hath no right to say to the foot, I have no need of thee."

Waxing in laid lineatum at regular intervals makes it last longer.

## MAY KILL MINK AFTER MUSK-RAT SEASON

While an order of the Conservation Commission forbids the trapping of mink at any time other than during the open muskrat trapping season, it does not forbid the taking of mink by any other ordinary means at any other time.

Guns, dogs, or any usual method of killing mink may be employed after the last of the zoned muskrat season closes, December 31. However, a permit must be obtained to carry a gun when there is no open season on protected game.

One conviction has been reported for trapping mink before the opening of the muskrat season.
